How was  Iraq , as a way of "preventing"  
S.H.'s  nuke program ?

(Lester Panzer)

on Al Franken, Feb...  
5-10-06

"Hitler's invasion of Russia was  
well-conceived, but poorly executed,"

(Dens on Iraq)

Cuba-I (hot  nuke   air )

Reaction to Kothua.

Pearl Harbor: perfectly executed,  
but a strat. disaster

Poland, France, etc.

in Russia - well executed

Japan in SEA, West Pac

(except too late in  
the year; no prep  
for  winter , but  
Iraq, as prep. for  
 misadventure )

Cf. from

Would  air   attack  on Iraq have been "better"?

Yes: but  not  solution to his nuke program  
or his power: see  Gulf War !

Would give up  inspectors , which  did  stop him

No  mid.  solution that doesn't make situation  
 worse  - that is  less  not  worse  than from  
current program (esp. w.  inspectors , but in  
withdrawing)  or  even an  American   nuke

(≠ Hitler nuke, OBL nuke)

Iran neither has  ties  with AQ

(now) nor would give nuke help to  
AQ  or  Hamas or Hezbollah.

(see gas, B-4 missiles)

Went to Big Horn, Aug. 14-06

This spring, USAF approached St. Air Force

Cheng attention: to. planning

for plans for town

I don't think

2) Must take care of Hq. mission for  
attacking

3) Get rid of Nasrullah, Hq. — a T group.

As would have done it anyway — but  
timing

After Hq. captured by Hq. S.I. shows  
could encourage Hq. to do something

"Next time Hq. make a move, As would  
going ahead — it came 10 days later.

As convinced it would be long — thanks of  
Hq.

One of AF options I know about was, in from  
super - Shock + Air - 36 hours — hit infra — people  
would come out, to shelter and say,  
"Oh my God, the Muslims have done this to us"

(last year, in civil war + Cheng  
they would rise up and install secular regime.

Later, in 1980, for believed that Christians + Muslims would rise up against  
Shiite Hq.

SH

Seeing central

Don't know how much Bush was involved.

When one option was shelved, (late April)

As was surprised that Nas. moved so fast

For first time, Rung doesn't seem to be on board -

"like McN" (of '67, he decided VN was  
unrecoverable)

So R. was not happy with idea of protestations

I don't think Sam + Lygia control Nas. the way Wash  
thinks

SH has not remembered a lot!

He's religious

He's got child eyes, and he's  
got humor.

Intell off. encouraged BH to see him - for  
his views on Iraq!

"You can't get the Admin to think about the  
down side on anything."

As. same on Lebanon.

Pres. of Lygia has shared SH letters to WH  
saying "We can help you on Iraq - we don't  
want a Somalia in Iraq"

Good

We learned more about A.Q. from Lygia  
than from other contacts

"We want to see you win the war on  
terror"

(As. wanted to talk to Lygia about Golan Heights  
in 2003 - US discouraged this - didn't

SH - "Nothing's going to happen before this election."

Bush: I know I'm right - I know people  
don't quite believe me - but like Churchill

it should have led to intervention for

half the way was blown,  
it could ~~not~~ be controlled

What do I have to say beyond what's in  
Herald's article? (which AF hasn't read).

1) I have the background to know that  
the ~~possibility~~ <sup>possibility</sup> for SH's article is to be  
taken very seriously... for this Berlin

planning, desire, nervous  
and mil. reservations

AF to me: "Do you think there's any possibility of this being the?"

~~first~~

Attack: very bold, hard for us to stop  
it, but possible.

More attack: more possible to stop it;  
not less than  $\frac{1}{3} - \frac{1}{2}$  if we ignore  
it; that less because of strong mil  
resistance (SH);

There is mil. resistance to any  
attack — but there was to any, too,  
esp to the attack (with the forces limited  
as the unim. Russ actually planned:  
but that's what they did. In the end, they  
succeeded and went ahead with a plan  
they thought was bound to fail, to poison  
the country — and they were right. It was the  
scheme imposed — to Congress & the  
public — that was wrong. We're caught  
in a trap, and they brought out this  
troop into it, to die and be mutilated —

as well (Change of the Light Brigade —

Ok and another Terrace to celebrate it —  
Change of the (Light) Brigade — Oh what  
a sight to make! All the world  
wondered. Someone had blundered — we  
knew the name — but the results aren't  
glorious. Light is making, body armor,

Anyway, the Light Brigade did reverse course  
and rode out of the jaws of death —  
though not the 600.

This Puro ~~fills~~ wait for that order.

- ② ~~The~~ ~~USA~~ can say something that  
 SH won't : <sup>some</sup> people with the same  
 access and same writings as his sources  
 should take bigger personal notes than  
 his sources, and go beyond doing quiet  
 discussions with SH and the Work Post.

If should put out docs - Pres + VP  
planning orders, ~~also~~ intell ests of costs and  
degrees, critiques of holding of the JCS -  
let us know, ~~in pretty~~ <sup>in pretty</sup> simplicity, what  
men with combat + operational experience  
and ME expertise - i.e. men ~~also~~ different  
from any on the WH or ASD staff, or  
the Secretaries or <sup>staff</sup> ~~Pres~~ Bush - are telling  
the WH.

SEA says the circus isn't history, just  
as in long. Well, but as history &  
read - and Congress

Some, that our best leads: <sup>False</sup>  
being ~~giving~~ TS <sup>the Pres how to see</sup> ~~into~~ <sup>in</sup> ~~order~~

noting that they were ~~known~~ to be  
questionable when they were were presented  
to the Pres ~~and when~~ or noting that he  
knew them to be false when he heard  
the (not "declassified"?) )

But was still refusing a work letter,  
in regards it was still class, as it was.

Declass. is a process that makes a doc

illegal, warrantless wiretaps?

(Are latter "necessary"? Why not change FISA?

FISA can't has asked initially any request  
made to it for a wiretap : 15,000 grants,  
4 rejections, of which 2 were just briefly postponed.

There is a legal, fast process for biting to  
AQ suspects. Obviously, Bin is doing secretly — with  
the illegal help of 4000 + others — that he don't

It in the FISA Court would find ~~the~~ unnecessary intrusion (of the privacy of non-subjects!) of unconstitutional (as in an emergency).

like the torture it leads to, no evidence has been given that the kidnapping or ~~the torture~~ was so necessary ~~as to~~ to an intell or security as to override its criminality.

(as with taps)  
The plan to make that case is either in a ~~State~~ Congress — to change the law or in a criminal court, as a defendant before a jury.

(after 9-11, no jury so going to be heard against gov action, or an inquiry to a defendant of arrest — based on evidence, not mere assertion (like too many judges appointed by Reagan, Bush — Bush 2
